TEST GUIDE

# Full Panel Test Guide — All Roles

Updated 11 Oct 2026 after partner pull (HR/Finance API SoT + masters) + your Phase 1/2 merge · Mark Pass / Fail / Gap

**Before testing.** Restart backend (`backend\run-local.bat`) so new permissions/masters seed. Frontend: `npm run dev` → `http://localhost:5173`. Parent login is created only on **Enroll as Student**, not on Save Admission.

**Partner cutover (important).** HR + Finance are API source-of-truth. Clearing browser localStorage must NOT wipe employees/fees after re-login. If HR/Finance API is down, those portals show an error (no silent demo restore). See `API_SOT_CUTOVER.md`.

## 1. Seed logins (username + password)

| Role | Email | Password | Owner |
|---|---|---|---|
| Admin | admin@qmis.edu | admin123 | You — Admissions |
| Teacher | teacher@qmis.edu | teacher123 | You — Academics |
| Coordinator | coordinator@qmis.edu | coord123 | You |
| Principal | principal@qmis.edu | principal123 | You — Approvals |
| Director | director@qmis.edu | director123 | You — Approvals |
| HR | hr@qmis.edu | hr12345 | Partner |
| Account Head | accounthead@qmis.edu | accounts123 | Partner — Finance Head |
| Finance Assistant | finance.assistant@qmis.edu | finance123 | Partner — collect only |
| Parent | (set at Enroll) | (enroll / change-password) | You — created on Enroll |

**Frontend flags.** VITE_USE_API_AUTH / ADMISSIONS / FINANCE / ACADEMICS / OPS = true. API: http://127.0.0.1:8000/api/v1

## 2. Recommended test order (after partner merge)

- Restart backend → confirm login works for admin + teacher + hr + accounthead
- Admin — Enquiry → Admission → Enroll (+ parent email/password)
- Parent — Login → Change password if asked → Dashboard (1 child auto-skips Select Child)
- Teacher — Class Attendance shows enrolled student (not only demo Arjun list)
- Teacher — Lesson Plan / Mark Entry / Leave
- Director — Approve lesson plan + marks
- Principal — Approve leave if routed
- Parent again — Fees / Exam Result (note gaps)
- HR — employees persist after hard refresh; Child Concession can see enrolled students
- Account Head — fees/collections persist; optional Finance Assistant collect-only smoke
- Cross: HR apply concessions / payroll Paid → Finance voucher (partner hardening)

## 3. Admin panel (Phase 1 — you)

Login: admin@qmis.edu / admin123 · Path: /admin/...

### 3.1 Admission Enquiry

| # | Action | Expected | P/F/G |
|---|---|---|---|
| A1 | Front Office → Admission Enquiry | List loads | |
| A2 | + Add enquiry → save name/mobile/class/email | Row appears after refresh | |
| A3 | Convert enquiry → admission (if shown) | Admission created/linked | |

### 3.2 Admission List + Enroll (critical)

| # | Action | Expected | P/F/G |
|---|---|---|---|
| A4 | Admission List → + Add Admission | Form opens | |
| A5 | Save student + parent email + password | Status Active (not enrolled yet) | |
| A6 | ■ menu → Enroll as Student | Password prompt | |
| A7 | Enter parent password (min 6) → OK | Status Enrolled; parent user created | |
| A8 | Refresh list | Still Enrolled | |

**Critical.** Save Admission alone does NOT create parent login. Only **Enroll as Student** creates student + parent user in Postgres. Partner HR concessions use `GET /admissions/enrolled-students`.

## 4. Parent panel (Phase 1 — you)

Login: parent email from enroll · Example sabari@gmail.com

| # | Action | Expected | P/F/G |
|---|---|---|---|
| P1 | Login with parent credentials | OK or Change Password | |
| P2 | Change password if forced | Enters parent area | |
| P3 | Select Child | Shown if 2+ kids; auto-skip if only 1 | |
| P4 | Dashboard shows child name/class | From /parents/me/children API | |
| P5 | Fees Payment — Network finance/state | 200 (finance.read); not 403 | |

### 4.1 Parent pages — integrated vs gap

| Page | Status | Notes | P/F/G |
|---|---|---|---|
| Select Child | API | Linked enrolled children | |
| Dashboard child header | API | Real name/class/admission | |
| Fees Payment | Partial API | Needs Account Head fee data for student | |
| Exam Result | Partial | Needs Teacher marks + Director approve | |
| Exam Schedule | Gap | Often still filtered to class 10-A | |
| Attendance | Gap | Still mock calendar | |
| Study / Library / Hostel / TC | Gap | Mostly demo UI | |

## 5. Teacher panel (Phase 2 — you)

Login: teacher@qmis.edu / teacher123 · Path: /teacher/...

| # | Action | Expected | P/F/G |
|---|---|---|---|
| T1 | Attendance → Class Attendance | Shows enrolled students (e.g. Sabari) | |
| T2 | Change Present/Absent → refresh | Status sticks (API sync) | |
| T3 | Lesson Plan → Add/Submit | Pending plan saved | |
| T4 | Mark Entry → submit | Pending Director approval | |
| T5 | Leave Request → Add → Submit | Appears in My Requests | |
| T6 | Task / Escalation create | Saved via Ops sync | |

## 6. Director panel

Login: director@qmis.edu / director123

| # | Action | Expected | P/F/G |
|---|---|---|---|
| D1 | Lesson Plan Approval → Approve/Reject | Teacher sees updated status | |
| D2 | Mark Entry Approval → Approve/Reject | Marks approved for parent view | |

## 7. Principal + Coordinator

Principal: principal@qmis.edu / principal123 — leave/tasks. Coordinator: coordinator@qmis.edu / coord123 — similar to Teacher.

## 8. HR panel (partner) — API SoT

Login: hr@qmis.edu / hr12345 · Path: /hr/...

| # | Menu / action | Expected | P/F/G |
|---|---|---|---|
| H1 | HR Dashboard | Loads | |
| H2 | Employee Management list/add | API works | |
| H3 | Hard refresh / wipe site data → re-login | Employees still from API (SoT) | |
| H4 | Leave Management | Policies/requests load | |
| H5 | HR Attendance | Loads | |
| H6 | Payroll — mark month Paid | Locks; still there after refresh | |
| H7 | Child Concession student picker | Shows enrolled students from Admissions API | |
| H8 | Recruitment / Onboarding / Exit | Loads | |
| H9 | Apply concessions → Finance (hardening) | Account Head sees concession | |
| H10 | Payroll Paid → Finance OUT voucher | Partner hardening focus | |
| H11 | RFID / eSSL | Off until school confirms — Gap OK | |

## 9. Account Head / Finance (partner) — API SoT

Login: accounthead@qmis.edu / accounts123 · Path: /account-head/...

| # | Menu / action | Expected | P/F/G |
|---|---|---|---|
| F1 | Dashboard | Loads from API (error panel if API down) | |
| F2 | Fees Management | UI loads; enrolled students may appear in snapshot | |
| F3 | Collect fee → hard refresh | Receipt/collection still on API | |
| F4 | Send receipt (WhatsApp/email) | Demo/stub toast — not real delivery | |
| F5 | Collections / Reports / Approvals | Loads | |
| F6 | Wallet / Transport fleet | Live snapshot keys | |
| F7 | Settings → Reload snapshot / HR concessions | No demo wipe reset | |
| F8 | Fees for enrolled student | Parent Fees can show dues | |

### 9.1 Finance Assistant (partner)

Login: finance.assistant@qmis.edu / finance123 — can collect/send receipts; cannot change masters or approve (finance.collect only).

| # | Action | Expected | P/F/G |
|---|---|---|---|
| FA1 | Login as Finance Assistant | Account Head–style collect access | |
| FA2 | Try master/structure edit or approve | Should be blocked / no permission | |

## 10. Cross-panel happy path

- Admin enrolls child + parent credentials
- Parent logs in and sees child
- Teacher attendance shows that enrolled student
- Teacher marks → Director approves → Parent Exam Result (if ids match)
- Account Head sets fees → Parent Fees shows dues
- HR concession/payroll → Account Head confirms (partner)
- Hard refresh HR + Finance → data still from API

## 11. Known gaps (still expect these)

| Area | Gap |
|---|---|
| Parent Attendance | Mock calendar — not real API roster yet |
| Parent Exam Schedule | Hardcoded class 10-A filter |
| Teacher Mark Entry list | May still use demo student list vs enrolled API |

| Area | Gap |
|---|---|
| Parent Fees | Needs Account Head fee rows for that student |
| Gateway / WhatsApp / SMTP | Demo or stubs until production keys |
| RFID / eSSL | Flag off — partner deferred |
| Masters years/sections | Seeded — use in forms when UI exposes them |

## 12. Ownership

| Owner | Owns |
|---|---|
| You | Auth, Admissions, Students, Parent children, Academics, Ops, Teacher/Parent wiring |
| Partner | HR vertical, Finance SoT + actions, concessions/payroll voucher, integrations demo, RFID later |

## 13. Bug note template

Panel/Role · Email · Menu path · Steps · Expected · Actual · Network URL+status · Screenshot Y/N · Mark Fail or Gap

## 14. Quick credential card

| Role | Email | Password |
|---|---|---|
| Admin | admin@qmis.edu | admin123 |
| Teacher | teacher@qmis.edu | teacher123 |
| Coordinator | coordinator@qmis.edu | coord123 |
| Principal | principal@qmis.edu | principal123 |
| Director | director@qmis.edu | director123 |
| HR | hr@qmis.edu | hr12345 |
| Account Head | accounthead@qmis.edu | accounts123 |
| Finance Assistant | finance.assistant@qmis.edu | finance123 |
| Parent | (from Enroll) | (enroll / change-password) |

Report Fail/Gap using step IDs (e.g. T1, H3, F3, FA2) so fixes can be prioritized.
